

## INSTRUCTIVO

Lea este instructivo por completo antes de utilizar el aparato y guárdelo para futuras referencias.

## ESPECIFICACIONES

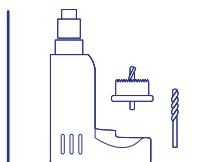

Tensión: 12 V- / 127 V-  
Frecuencia: 60 Hz  
Corriente: 390 mA  
Potencia: 50 W Máx.  
Tipo de lámpara: Halógeno MR-16  
Base: Bipin GX5.3

## ⚠ ATENCIÓN

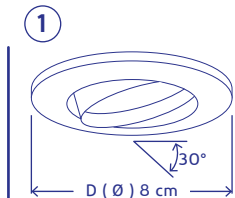

- Para lámpara de 12 V- requiere un transformador (no incluido)
- Desconecte la fuente de energía durante la instalación.
- Utilice guantes o un trapo al manipular el foco o el luminario, ya que estos se pueden calentar y causar quemaduras.
- Las características eléctricas del luminario se podrán consultar en el marcado el producto.

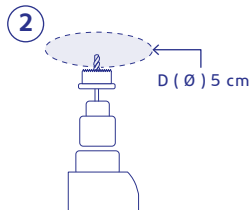

## INSTALACIÓN

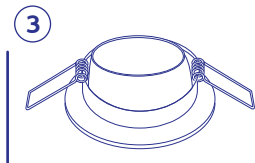

Herramienta sugerida

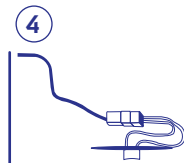

Dimensiones

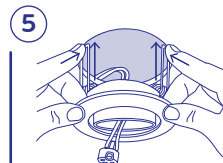

Perfore en el lugar seleccionado para empotrar

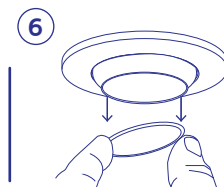

Ponga el luminario en la posición correcta

Conecte el portalámparas y fíjese que los cables no queden enredados

Inserte el luminario

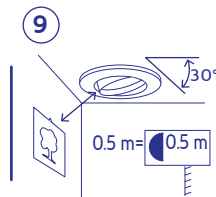

Se debe retirar el clip de seguridad

Conecte la lámpara al portalámparas

Agregue el clip de seguridad

Distancia mínima de montaje

## INSTRUCTIONS

Read this instruction manual completely before using the device and keep it for future reference.

## SPECIFICATIONS

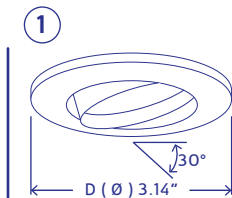

Voltage: 12 V~ / 127 V~  
Frequency: 60 Hz  
Current: 390 mA  
Power: 50 W Max.  
Lamp type: Halogen MR-16  
Base: Bipin GX5.3

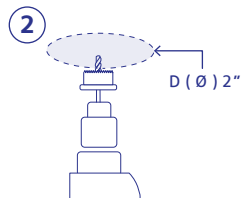

## INSTALLATION

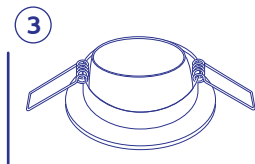

Suggested tool

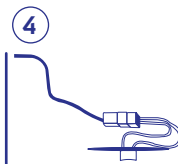

Dimensions

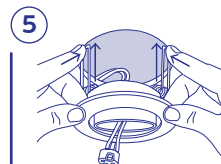

Drill in the selected location for embedding

Place the fixture in the correct position

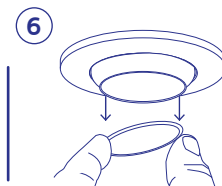

Connect the lamp holder and make sure that the wires are not entangled

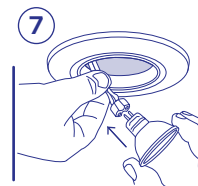

Insert the fixture

## CAUTION

- For 12 V~ lamp requires a transformer (not included)
- Disconnect the power supply during installation.
- Use gloves or a cloth when handling the lamp or fixture, as they can become hot and cause burns.
- The electrical characteristics of the fixture can be found on the product marking.

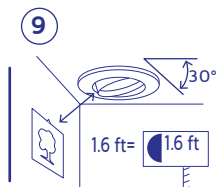

The safety clip must be removed

Connect the lamp to the lamp holder

Add safety clip

Minimum mounting distance
