**Fabricado en China bajo las estrictas especificaciones de GRUPO TRUPER**

**Largo**  
15 cm

A diagram of a large needle with a long shaft and a square handle. The needle is labeled 'Largo 15 cm'.

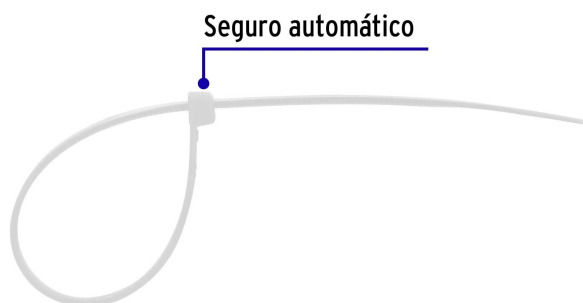

Ancho 2.5 mm

A diagram showing a rope with a knot tied around it. The rope is represented by a series of parallel lines, and the knot is a simple overhand knot.

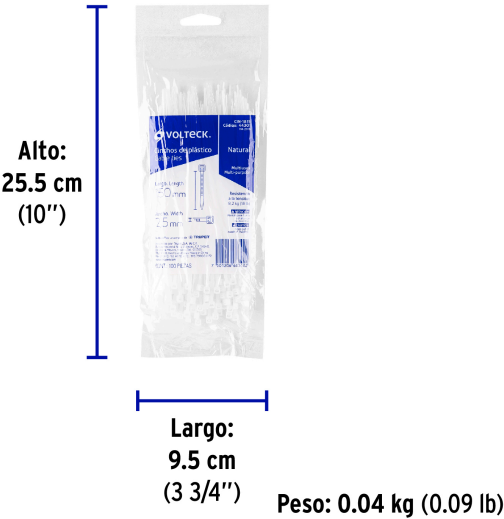

A diagram showing a surgical clip being applied to a blood vessel. The clip is a small, metallic, C-shaped device. It is shown in the process of closing around a blood vessel, which is represented by a curved line. The clip is held in place by a pair of forceps, which are shown as two long, thin, curved instruments. The forceps are positioned on either side of the clip, with their tips pointing towards the clip. The background is white, and the clip and forceps are drawn in a simple, schematic style.
